Select Lab Result Inquiry from the menu above and on the next screen enter the patient’s name & press enter.
You can enter more information to further define the patient look-up. If not….press enter and Accept this screen. On the next screen select the appropriate patient for viewing Lab Results.
A list of visits displays with the current visit listed first. Press enter for the current visit or select the correct visit.

The next screen lists the Lab test performed for that visit with the status of each in the far right column. Select the test to be viewed and press enter. The next screen displays the results for the test selected.
