

# 2020-2021 Catalog

## Clinical Obstetrics and Gynecology - Jacksonville

OBG E 1J | 4th Year Elective | Obstetrics and Gynecology | Clinical Science

MDT 7160

### Prerequisites

PGY3 OB/GYN rotation

### Course Description

This rotation is an opportunity to delve more deeply into obstetrics and gynecology. The student will experience one week on each of the services: gynecologic oncology, maternal-fetal medicine, benign gynecology, and labor & delivery. This busy urban setting offers a breadth of pathology and a true taste of the constant "controlled chaos" of our specialty. Excellent as an "audition rotation" or simply to broaden knowledge of women's health care issues.
